

U.S. COUPLING & ACCESSORIES

Introduces "HyFlow"
Shank Couplings

U. S. COUPLING & ACCESSORIES "HYFLOW" LARGE DIAMETER

FEATURES:

- * Full Bore design to minimize friction loss and increase flow.
- * Sexless design to facilitate assembly and connection.
- * Unique connection design allows hose to twist independently of each other, even under pressure.
- * Gasket design improves sealing over Victaulic Clamp shank couplings.
 - * Can be used with PVC/Nitrile or PU hose.
 - * Light-weight aluminum design.
 - * Hard coat anodized for abrasion resistance.

ALSO AVAILABLE:

- * Reducer/Inceaser * Adapters to Cam & Groove
- * Available with Storz ends * Menders * End Plugs

INDUSTRY USE: Agriculture, Energy, Industrial SIZES: 5", 6", 8", & 10"
